TruLight® 1000 Exam Light
Wide range of applications
Value and flexibility

Halogen is history. Now, you can enjoy all the benefits of LED technology in your examination light, including greater light intensity, longer service life, reduced heat generation and minimal power consumption. In addition, the specially balanced support arms and lightweight head help make the TruLight® 1000 Exam Light easy to position.

Lighting: Advanced design

With its LED technology, the TruLight® 1000 Exam Light offers not only higher light intensity, but also superior light quality when compared to conventional halogen lights. Light is optimally distributed by the unique Trumpf Medical multi-lens matrix, which provides homogenous light quality in both area and depth, for the best possible visualization.

Handling: Simple, flexible, convenient

With specially balanced, lightweight support arms, the TruLight® 1000 Exam Light is easy to position. Plus, with the sterilizable handle, it is suitable for hygienic applications.
Energy efficient: Power with economy

Our lighting system offers compelling advantages over the traditional halogen light including a significantly longer service life, less heat generation, greater reliability and lower power consumption.

Location: Ceiling, wall, mobile

The TruLight® 1000 Exam Light is available in ceiling-mounted, boom-mounted and mobile versions. With its high flexibility and space-saving compact design, it is suitable for medical practices, outpatient clinics, and hospital exam and delivery rooms.
